E200 Series Projectors

E200 Series XGA and WXGA resolution projectors with 2600-3700 lumens brightness

SONY
make.believe

Just as teaching methods are adapted to match student ability levels, so we design our AV technology for the education sector to meet specific requirements. Sony have worked closely with teachers and purchasing departments within the education sector to create the E200 Series education projectors. Now schools can benefit from reliable, long-lasting projectors with a low cost of ownership that truly enhance the learning experience.

E200 Series XGA and WXGA resolution projectors with 2600-3700 lumens brightness

VPL-EW225 / VPL-EX225
WXGA and XGA with 2600~2700 Colour Brightness

VPL-EW245 / VPL-EX245
WXGA and XGA with 3100~3200 Colour Brightness

VPL-EW275 / VPL-EX275
WXGA and XGA with 3700 Colour Brightness

With a range of eco conscious features that ensure an outstandingly low total cost of ownership, the new Sony E200 Series projectors combine superb image quality and performance with ease of use.

The new E200 Series feature Sony BrightEra™ 3LCD technology which delivers higher picture quality, substantially brighter images, improved contrast, consistent colour stability and increased durability.

All E200 series models offer standard, XGA or WXGA resolution, 3000:1 contrast ratio, 2 XRGB, HDMI, USB, S-Video, Video in, LAN/RJ45, RS232, monitor out, microphone input, audio and 16W internal speaker. 7000 hours of lamp life, three brightness mode, auto lamp dimming, auto picture dimming and an ECO Gauge to ensure an outstandingly low total cost of ownership.

The E200 Series education projectors offer a brightness range from 2600 lm colour brightness (VPL-EW225) all the way up to 3700 lm colour brightness (VPL-EX275/VPL-EW275).

Other Features Continued

Vertical Keystone Adjustment
The projectors can correct keystone distortion by +/- 30% for perfect installation adjustment to the screen. (Note that since this is an electronic correction, it will reduce the picture quality slightly.)

Digital Zoom
With Digital Zoom, teachers can enlarge a selected area of a computer-sourced image on the screen up to four times.

Six Picture Modes
All the projectors within the E200 Series family have six available picture modes for correct picture quality; Dynamic, Standard, Game, Blackboard, Cinema and Presentation. With six picture modes and 3 brightness modes combined, teachers can select the most suitable picture/brightness mode according to the picture source and environment for the perfect image.

3LCD BrightEra Technology
The Sony BrightEra inorganic TFT 3LCD panels deliver improved panel light resistance, higher resolution, high brightness and increased panel reliability.

Smart APA (Auto Pixel Alignment)
When a computer is used as a picture source, APA automatically optimises Phase, Pitch and Shift values. These can also be adjusted manually.

Auto Input Search
Auto Input Search detects which input has an incoming signal and automatically switches to it. This makes it easier for teachers to set up the projector prior to making a presentation.

Picture Muting/Audio Muting
If there is a need to blackout the image or turn off the audio from the projector, all it takes is a single button-press on the remote control. One button will mute audio and image at the same time. There is also a separate "mute audio" button for audio-only muting.

Audio Switcher Facility
To avoid the need for a separate audio switcher, the projector can be used to select between two audio sources, routing them via a variable audio output to the room amplification system.

Off and Go
At the end of a presentation, teachers can turn off the power supply to the projector immediately, instead of going through a 'power down' cycle.

Direct Power On/Off
With this function, there is no need to go through 'Standby' mode when powering up the projector. The projector can be set to activate as soon as power is supplied.

Built-in Security Measures
The E200 Series projectors have a package of security measures, including password protection and physical anti-theft anchor points.

Optional Accessories

IPN-WLN3
USB wireless module

LMP-E212
Replacement Projector Lamp

442670201 (FILTER)

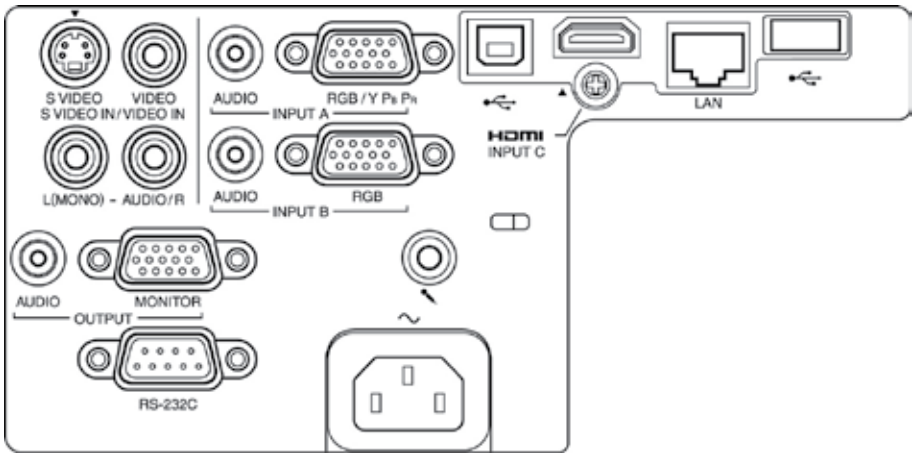
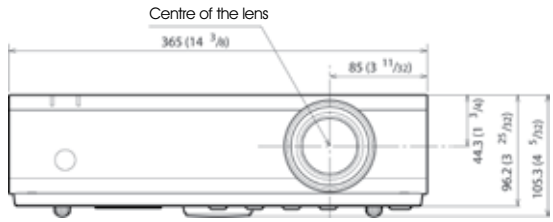
Connector Panels

Rear connector panel for the VPL-EW225, VPL-EW245, VPL-EW275, VPL-EX225, VPL-EX245 & VPL-EX275 projectors

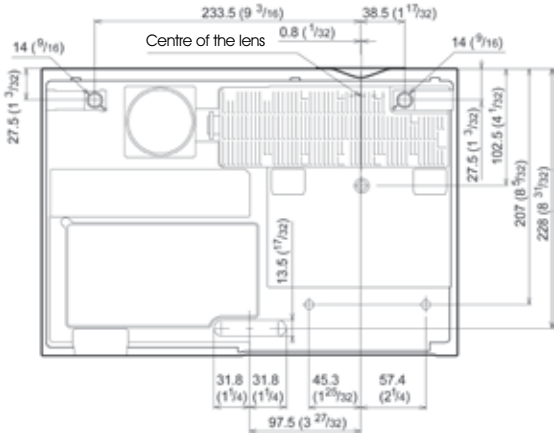


Dimensions

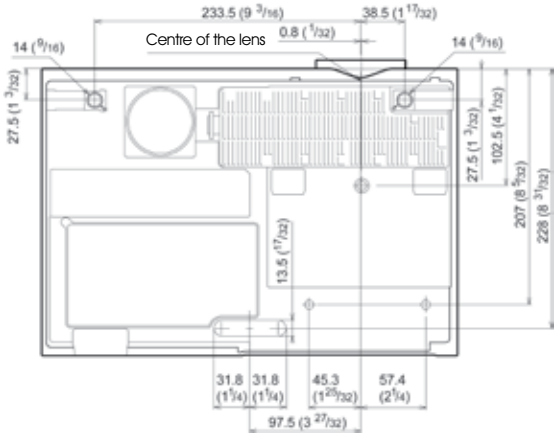
Front Dimensions for the VPL-EW225, VPL-EW245, VPL-EW275, VPL-EX225, VPL-EX245 & VPL-EX275 projectors



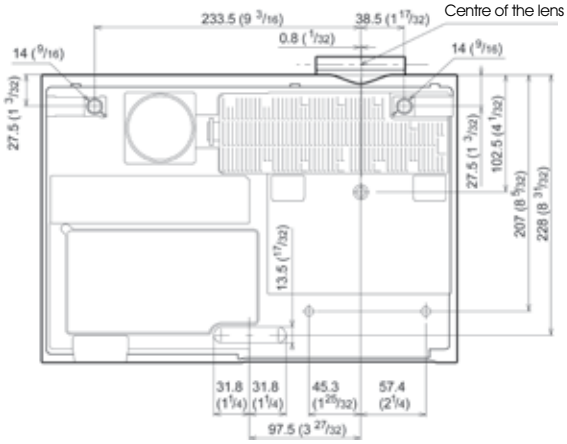
Bottom Dimensions for both the VPL-EW225 & VPL-EX225



Bottom Dimensions for both the VPL-EW245 & VPL-EX245



Bottom Dimensions for both the VPL-EW275 & VPL-EX275



PrimeSupport

All Sony Professional's education projectors sold into the EU, Norway and Switzerland come supplied with a 3 Year projector and 3 year/3000 hour lamp cover PrimeSupport pack. This offers unique services and benefits over and above standard warranty:-

3 Year projector and 3 year/3000 hour PrimeSupport Cover

Freephone telephone helpdesk support (00800 7898 7898) in 5 languages. Collection, repair and return anywhere in EU, Norway and Switzerland.

In addition, optional PrimeSupport Plus packs can be purchased which can further enhance the 3 year support to give extra peace of mind:-

- A 2 year extension of the standard 3 year PrimeSupport to give long-term assurance of expert support, technical assistance and repairs for 5 years from purchase date.
- Provision of a loan unit for 3 or 5 years cover to ensure minimal impact to the customer's business in case of product failure.

Prime Support Plus

Key Features

ECO Mode Key
Teachers can easily select power-saving ECO Modes. The most energy-efficient mode is accessible though a single button-push, with further adjustments available through an easily understood menu system.

ECO Picture Mute - (Instant Off/Instant On)
The new ECO Picture Mute feature reduces power consumption down to 30%, saving cost and lamp hours. This feature can be used in the classroom as instant off/instant on in-between classes. There is no need to power completely off and turn back on, which is time consuming and a significant problem with projectors in the classroom.

Auto Dimming Mode
The new E200 Series projectors automatically adjust brightness depending on the image. The darker the image, the less energy used by the lamp. (Maximum 70% lamp power reduction based on the image.)

ECO Lamp Dimming
These projectors (if this function is selected) can reduce power consumption and brightness by 10-15%. After a user pre-set time, the brightness and power consumption will reduce to 30% power usage, with instant 100% brightness returning as soon as a new signal input is detected.

ECO Gauge
When the projector is shut down, an ECO achievement indication (gauge) appears to show the teacher how well they have used the projector. The more ECO features that have been used, the better the ECO green leaf mark. (Calculated by the use of ECO functions and actual lamp wattage.)

Other Features

WXGA Resolution
The VPL-EW225, VPL-EW245 and VPL-EW275 have a native WXGA (1280 x 800) 16:10 screen resolution panel, perfect for presentations direct from a laptop or PC.

XGA Resolution
The VPL-EX225, VPL-EX245 and VPL-EX275 have a native XGA (1024 x 768) 4:3 screen resolution panel, perfect for presentations direct from a laptop or PC.

7000 Hours Lamp Life
A new driving scheme reduces gap expansion which minimises brightness gradation. A new cooling system allows uniformity in the temperature of the glass bulb which prevents the glass from clouding.

Filter Cleaning Cycle at the same time as lamp
The filter only needs to be changed when a new lamp is fitted, potentially halving disruption due to maintenance.
